

Product Change Notice April 26, 2024

Products Affected: IO-T3MCH-R
Type of Change: Change of Product Design. Appearance and Mechanical Specifications Impacted.
Affected Models: IO-T3MCH-R
Discussion: Io Audio Technologies occasionally makes changes to the designs of our Commercial Off the Shelf (COTS) products as we respond to the availability of parts for manufacturing, the global manufacturing context, and the state of the art in product design. The design of this product was initially completed in 2018, with no design changes since that time. Engineering determined in Q1 2024 that a design revision was needed to improve quality and manufacturability. The new design of the connector will begin volume manufacturing in Q2 2024.
