# CHASSIS CONNECTORS

## 3, 4, & 5 PIN XLR

E Series: Rear Horizontal or Vertical  
PCB Mounting, Gold Pins

B Series: Rear Horizontal or Vertical  
PCB Mounting, Gold Pins,  
Metal Faceplate

JL Series: Front Mounting Solder Cups,  
Silver Pins, Black or Nickel Metal Housing

JLX Series: Improved RF Protection, Front  
Mounting, Solder Cups, Silver Pins, Nickel  
Metal Housing

Applications: Audio, Lighting, Control, Data

## SPEAKERLATCH

4 Poles

Black Housing

Strong Locking Mechanism

Twist Lock Design to Prevent Accidental  
Disconnection

Applications: Speaker Level Audio

## UNBALANCED/BALANCED (1/4")

4 or 6 Switched Contacts

Half-threaded or Full-threaded Nose

Silver Contact Plating

Applications: Balanced & Unbalanced Audio, Control, Data

## POWERLATCH

3 Poles

Twist-Lock Design and Keyed to  
provide a solid power connection

Blue Connector for Power Input

Grey Connector for Power Output

Applications: Power for Audio, Lighting,  
Video Equipment, Electronics

# CABLE CONNECTORS

## 3 PIN XLR

Gold or Silver Plated Pins

Black Housing

Applications: Audio, Lighting, Control, Data

## 4 PIN XLR

Gold or Silver Plated Pins

Black Housing

Applications: Audio, Aviation, Lighting, Control, Data

## 5 PIN XLR

Gold or Silver Plated Pins

Black Housing

Applications: Lighting, Control, Data, Audio

## 1/4" Plug

4 or 6 Pin, TS or TRS Options

Silver Plating

Applications: Balanced & Unbalanced Audio, Control, Data

## ETHERLATCH

L Series: Twist off housing compatible with standard networking  
equipment

X Series: Fixed housing with longer strain relief

Applications: Digital and Analog Audio, Digital Video, Networking

## SPEAKERLATCH

4 Poles

Safe and Secure Twist Lock Mechanism

Reinforced Plastic Housing

Applications: Speaker Level Audio

## POWERLATCH

3 Poles

Twist-Lock Design and Keyed to provide a solid power connection

Blue Connector for Power Input

Grey Connector for Power Output

Applications: Power for Audio, Lighting, Video Equipment,  
Industrial Appliances
