

FEATURES & BENEFITS

STRANDED CAT 6 NETWORK CABLE

SPECS

8
(NO. OF CONDUCTORS)

24 AWG
(CONDUCTOR SIZE)

UL 1666 (CMR)
(FLAMMABILITY RATING)

POLYOLEFIN
(INSULATION MATERIAL)

ALUMINUM
MYLAR
(SHIELD MATERIAL)

APPLICATIONS

AVoIP & PoE

COMMERCIAL &
RESIDENTIAL
NETWORKING

CONDUITS

1 Gbps - 10 Gbps
ETHERNET

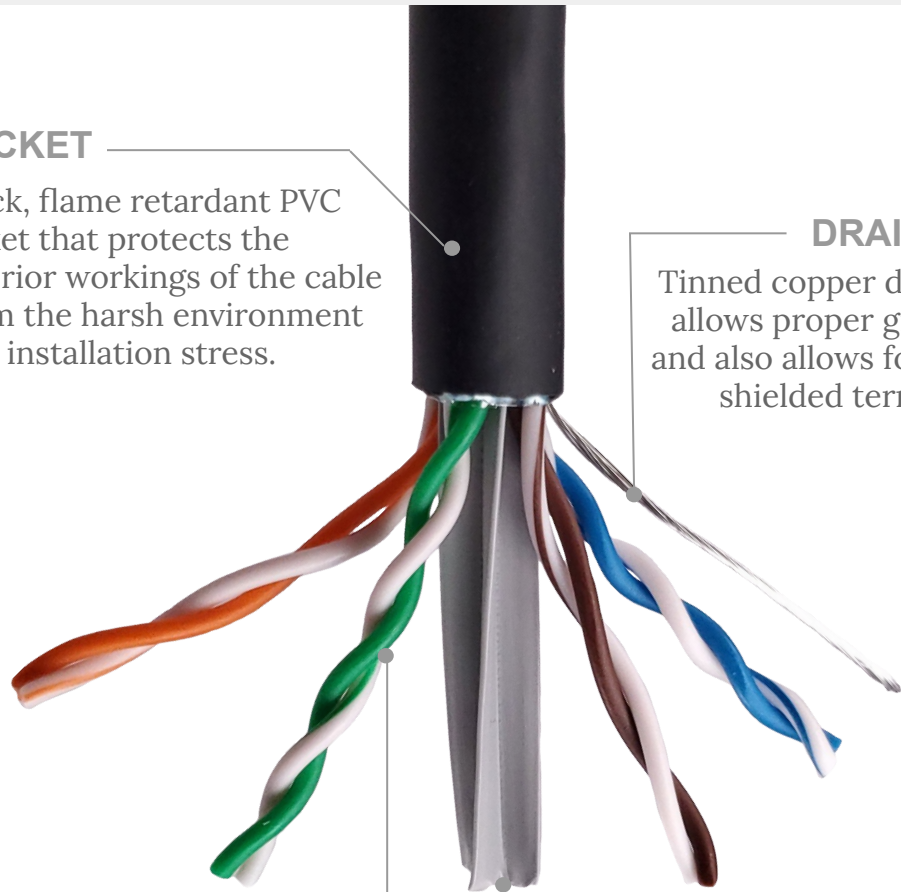

DIGITAL AUDIO

JACKET

Black, flame retardant PVC jacket that protects the interior workings of the cable from the harsh environment and installation stress.

DRAIN WIRE

Tinned copper drain wire allows proper grounding and also allows for proper shielded termination.

TWISTED PAIR

4 twisted pairs of stranded 24 AWG conductors offers excellent protection against crosstalk and also increases the flexibility of the cable for years of continuous bending and use in live performance.

INTERNAL SEPARATOR

Twisted pairs are separated by a 4-way separator to maintain proper spacing and reduce crosstalk between the twisted pairs.

GO THE DISTANCE

Distance markers are printed on the jacket every 2 ft so you never lose sight of how much wire you've installed.

PREMIUM SHIELD

Heavy-duty aluminum foil shield which protects against interference and crosstalk between cables.
